

4422

Early dental gum (pig)

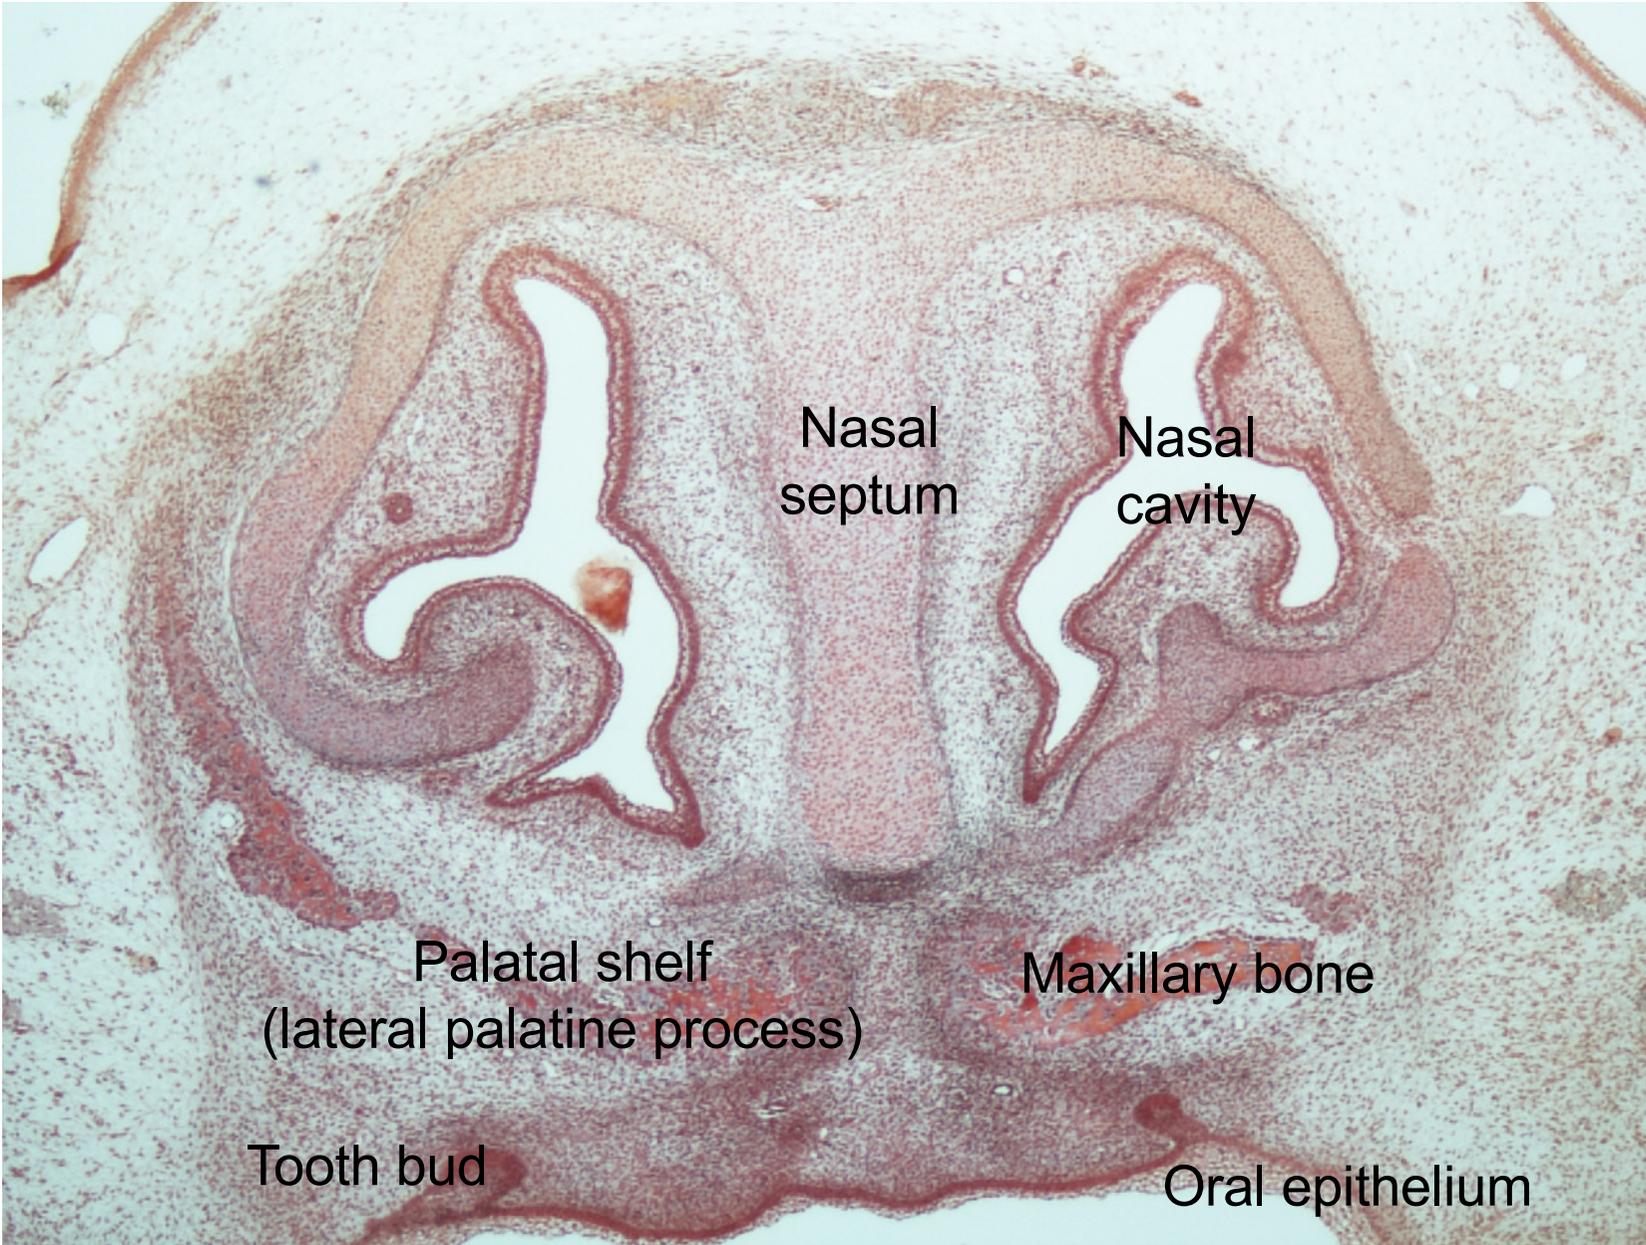

Nasal cavity

Palatal shelf

Tongue

Meckel's cartilage

Nasal septum

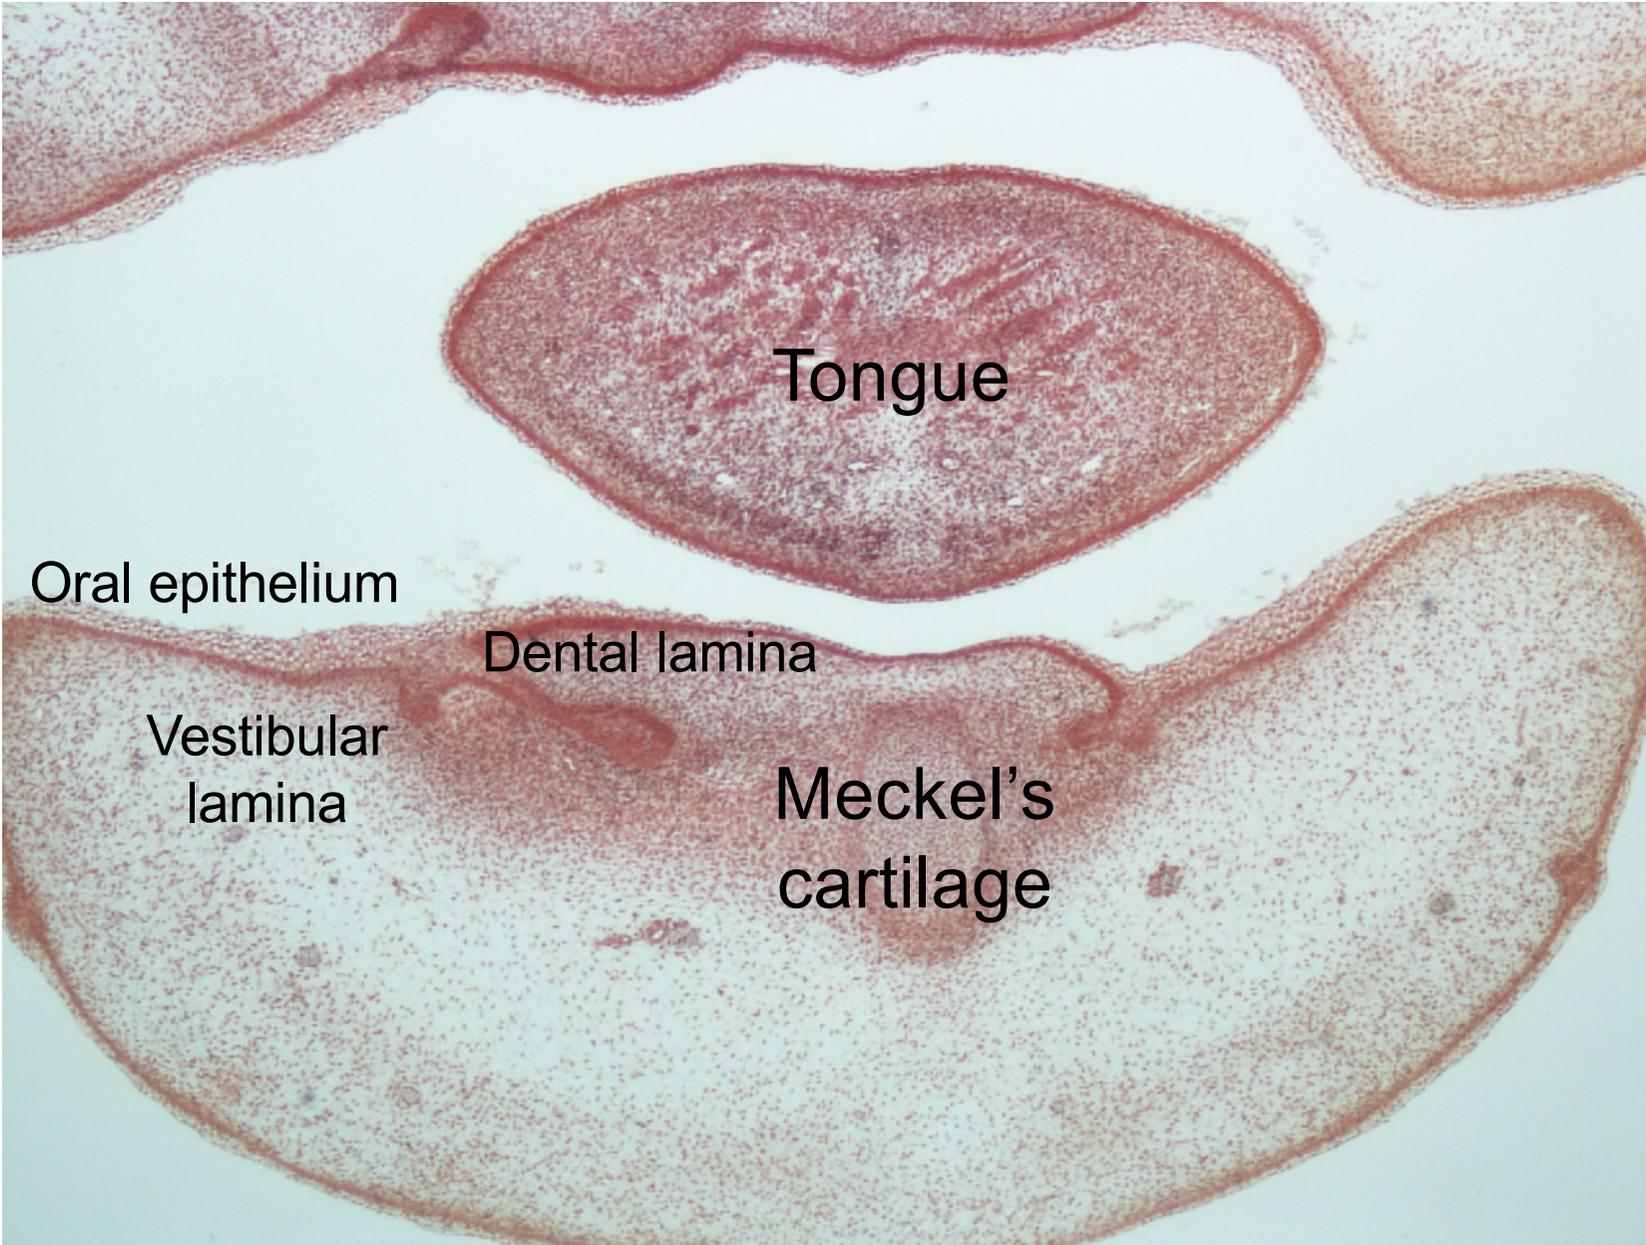

Nasal cavity

Palatal shelf
(lateral palatine process)

Maxillary bone

Tooth bud

Oral epithelium

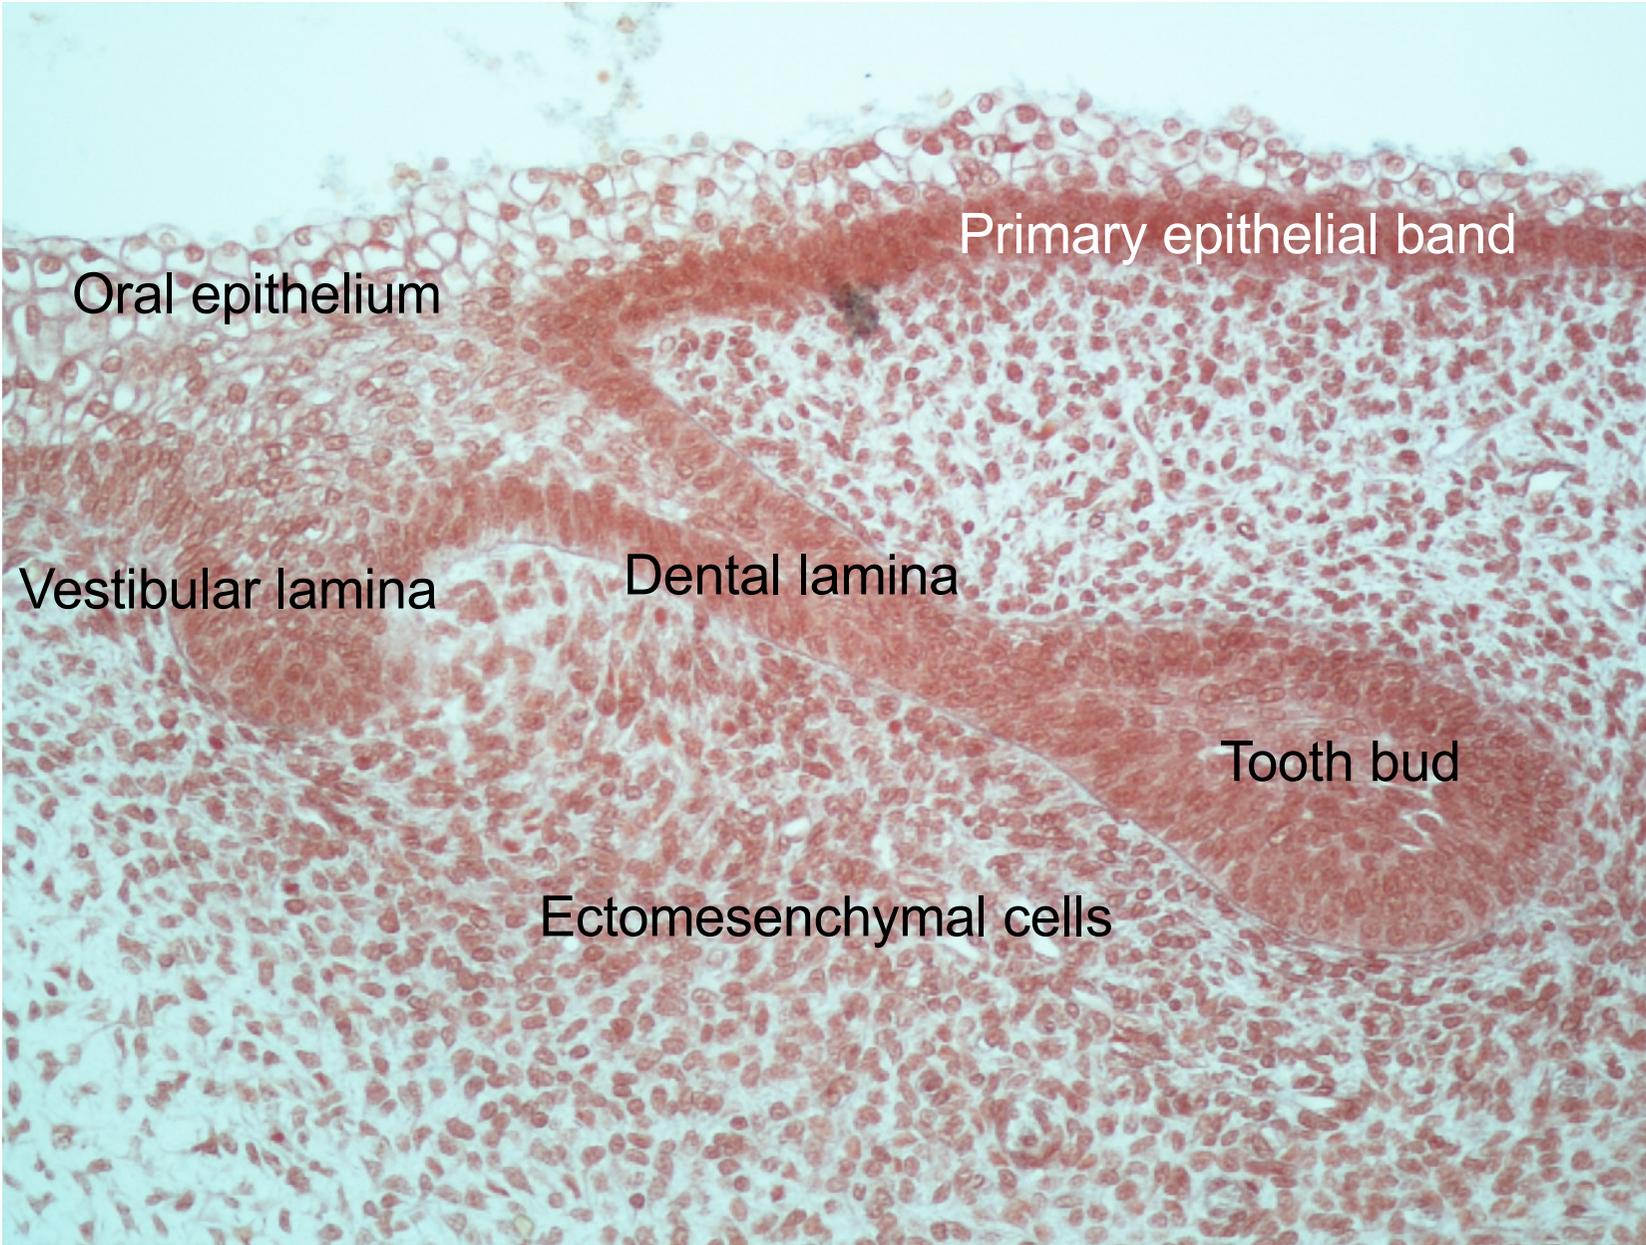

Tongue

Oral epithelium

Dental lamina

Vestibular
lamina

Meckel's
cartilage

Oral epithelium

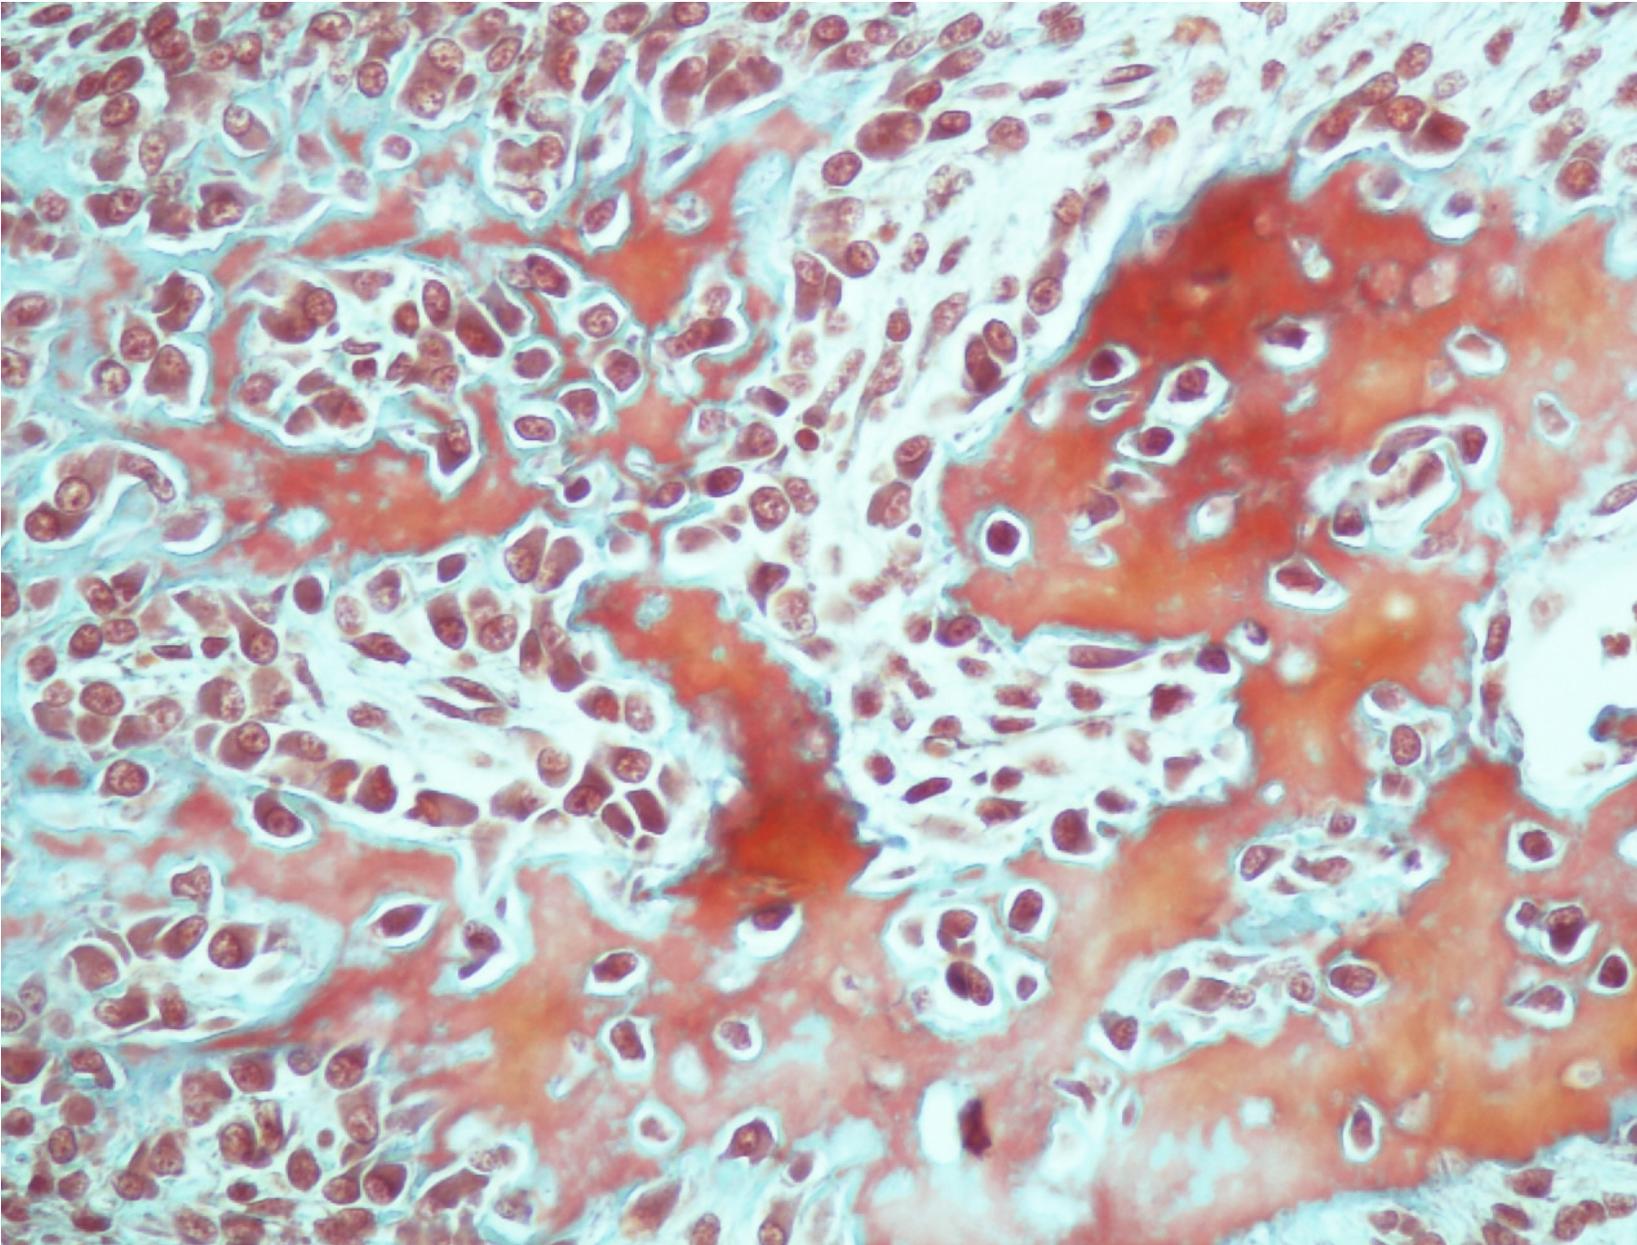

Primary epithelial band

Vestibular lamina

Dental lamina

Tooth bud

Ectomesenchymal cells

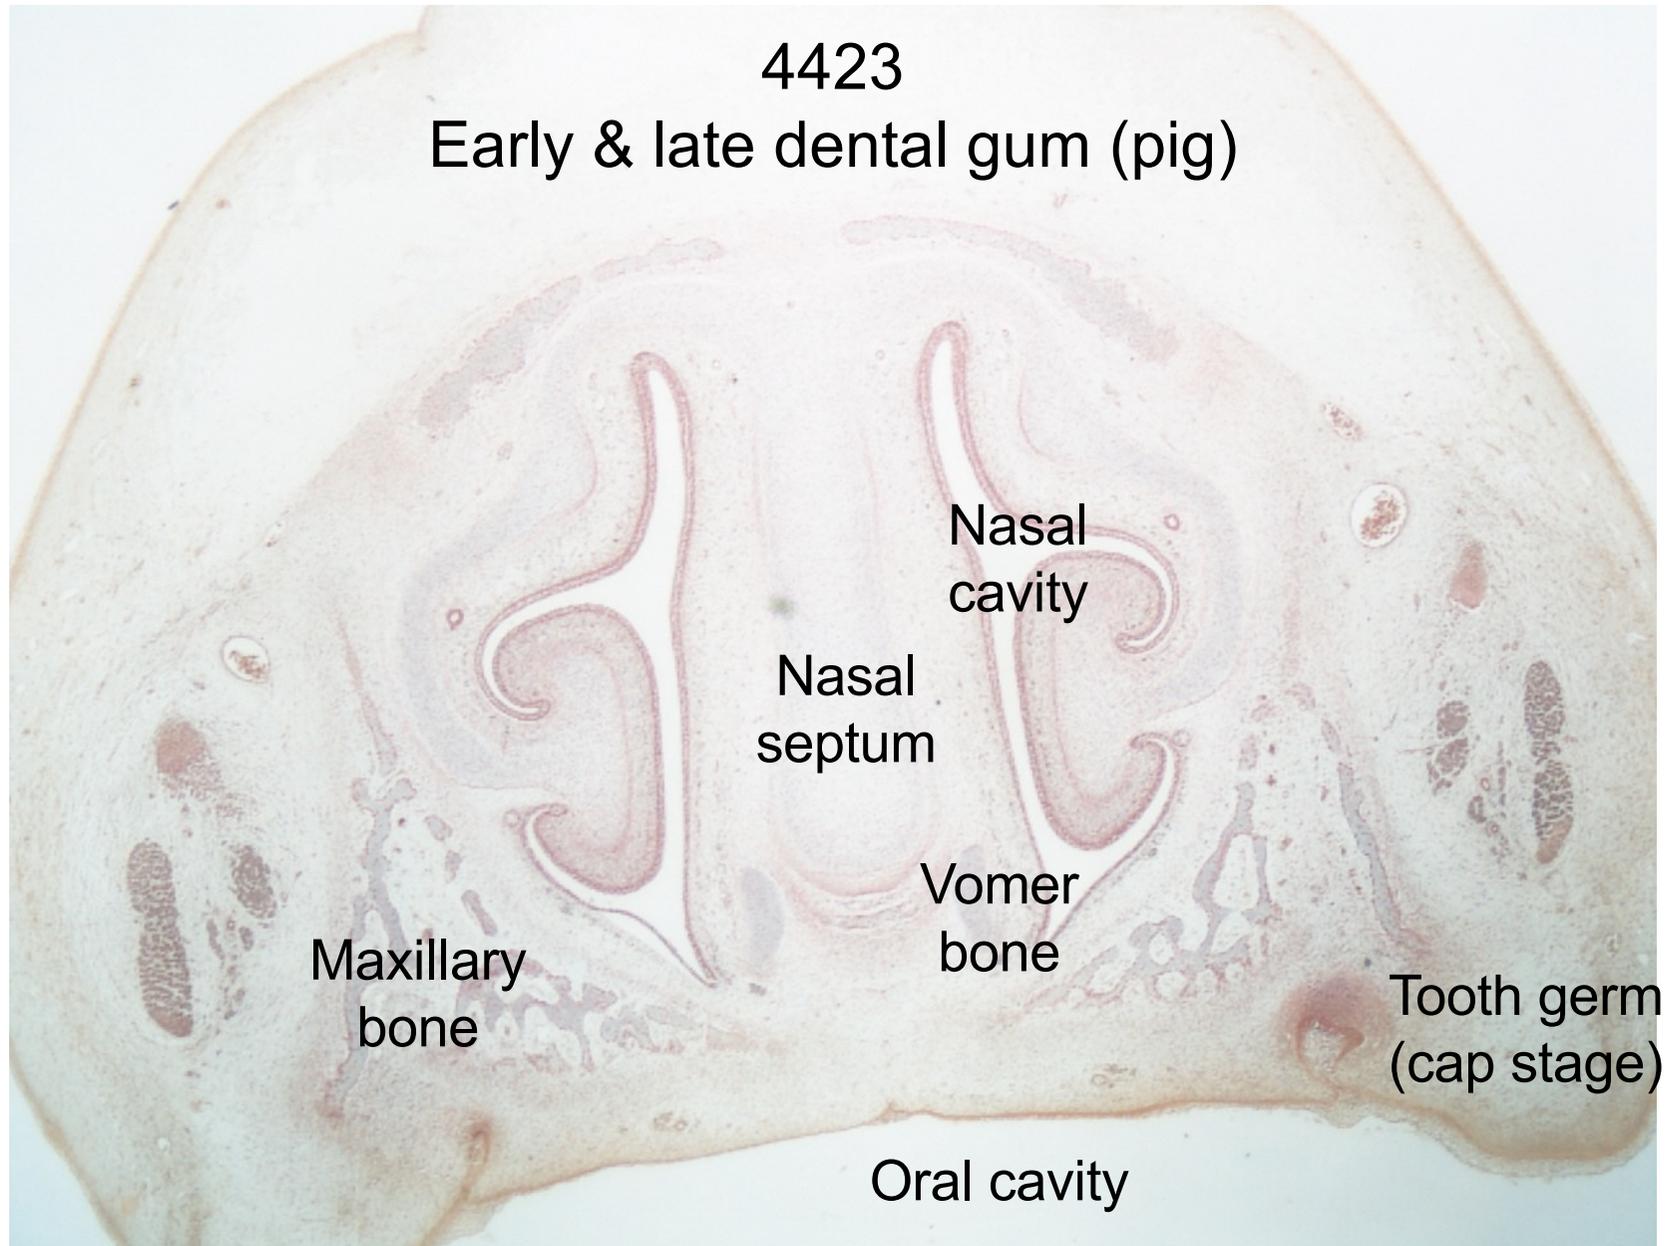

Key point

- Developing/
woven bone
- Osteoblast
- Osteocyte

4423

Early & late dental gum (pig)

Nasal cavity

Nasal septum

Vomer bone

Maxillary bone

Tooth germ (cap stage)

Oral cavity

Cap stage:

the enamel organ sits over the dental papilla like a **cap**

- (1) enamel organ, (2) dental papilla, (3) dental follicle/sac
- tooth germ (dental organ) = (1) + (2) + (3)

Maxillary
bone

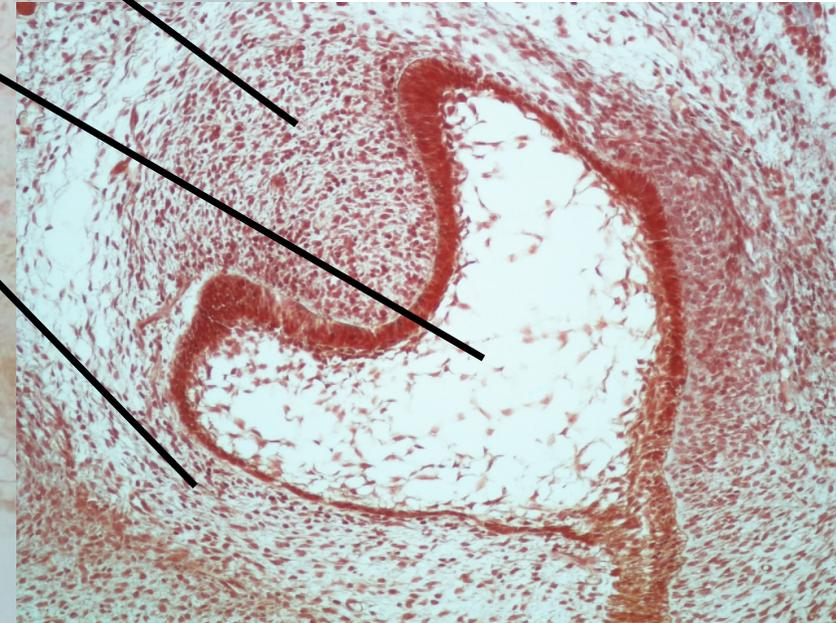

Primary epithelial band
Oral epithelium

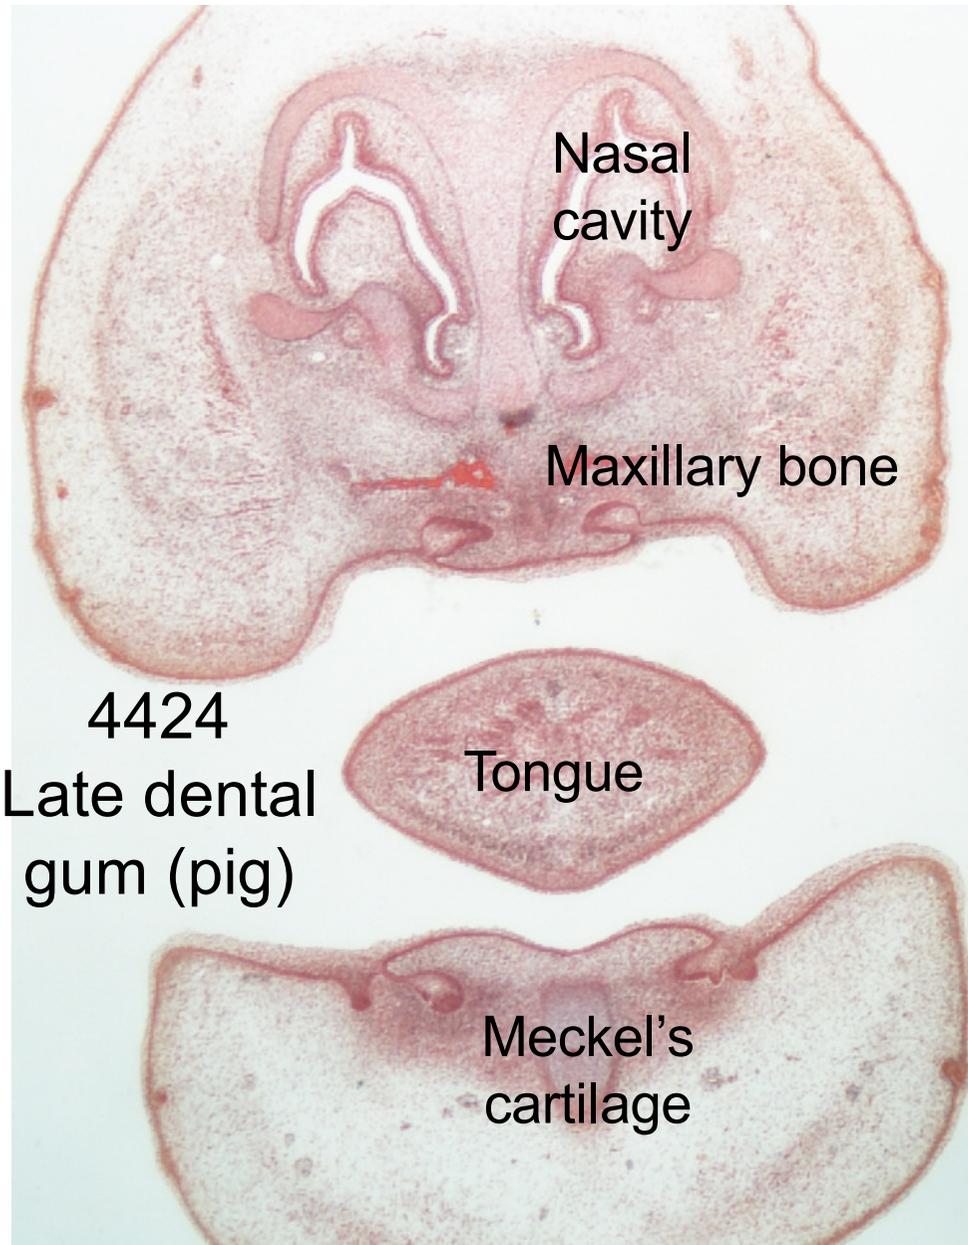

Oral cavity

(2)

(1)

(3)

Nasal
cavity

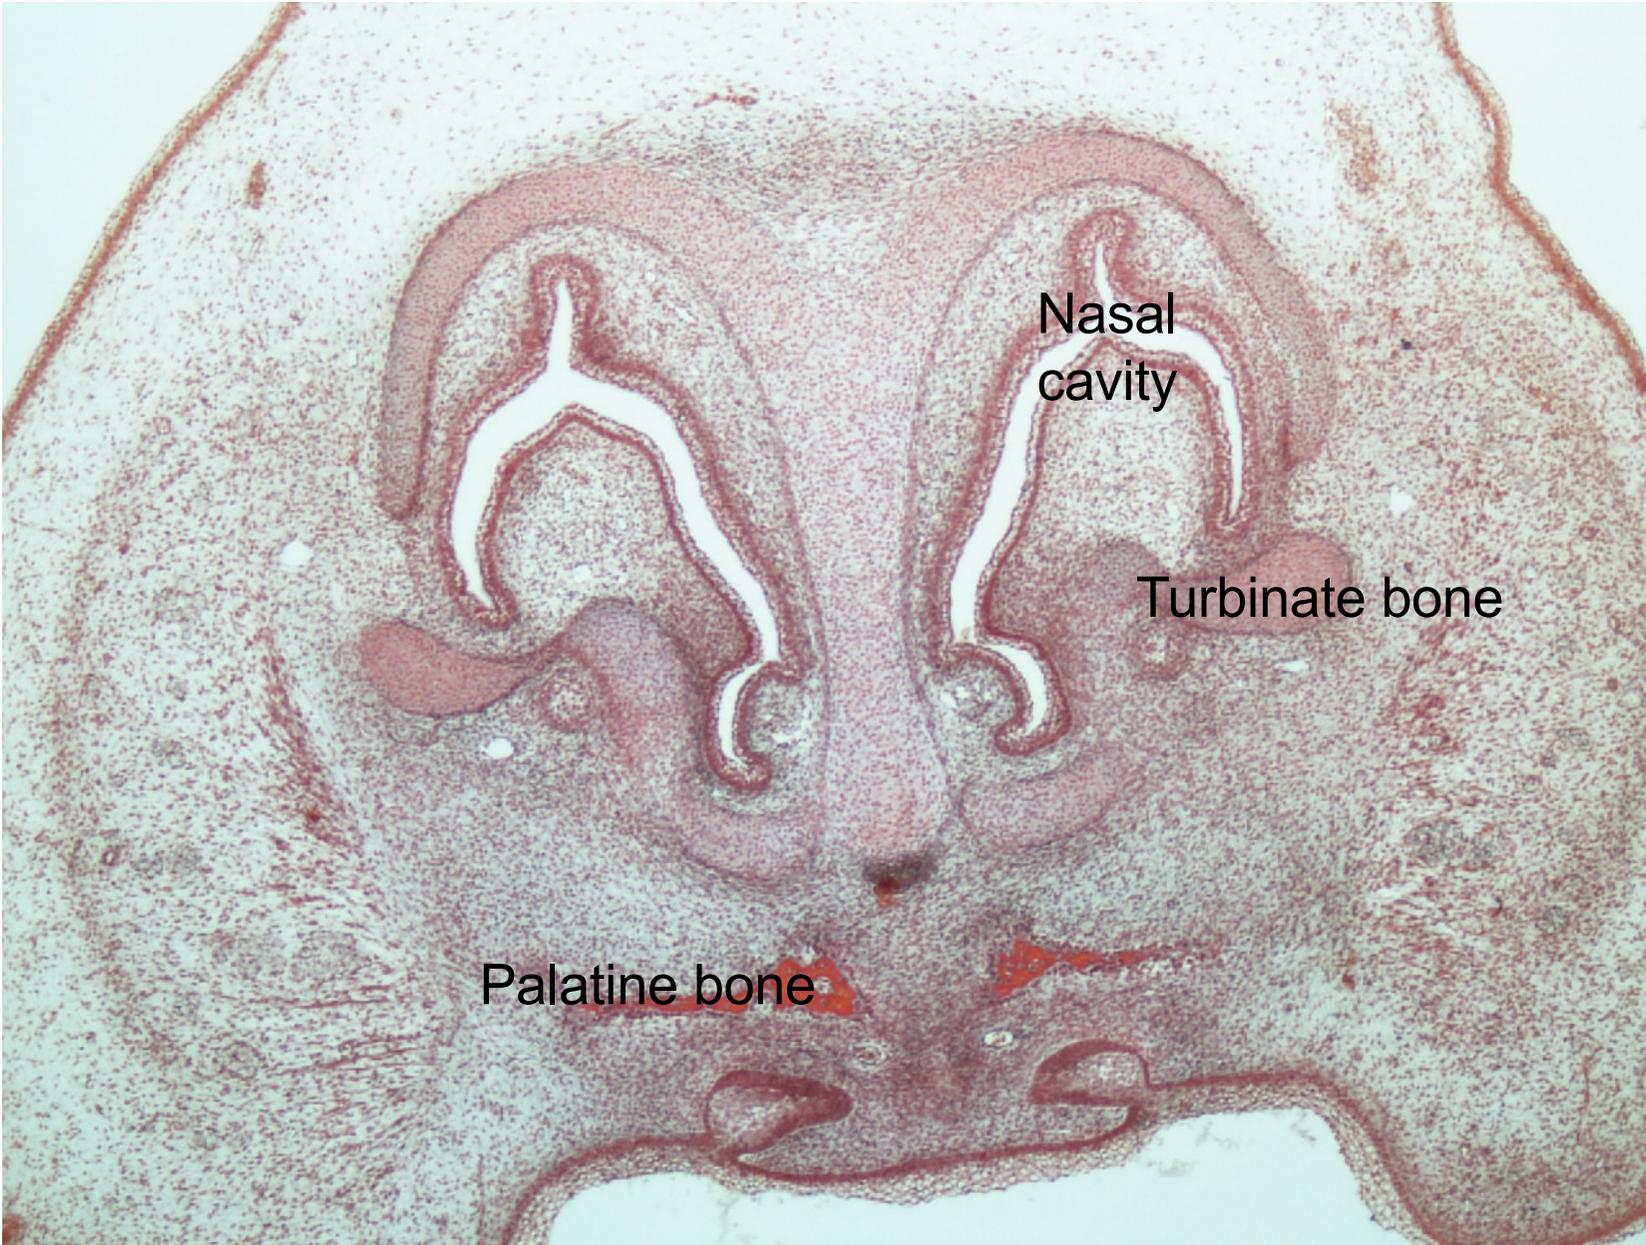

Maxillary bone

4424

Late dental
gum (pig)

Tongue

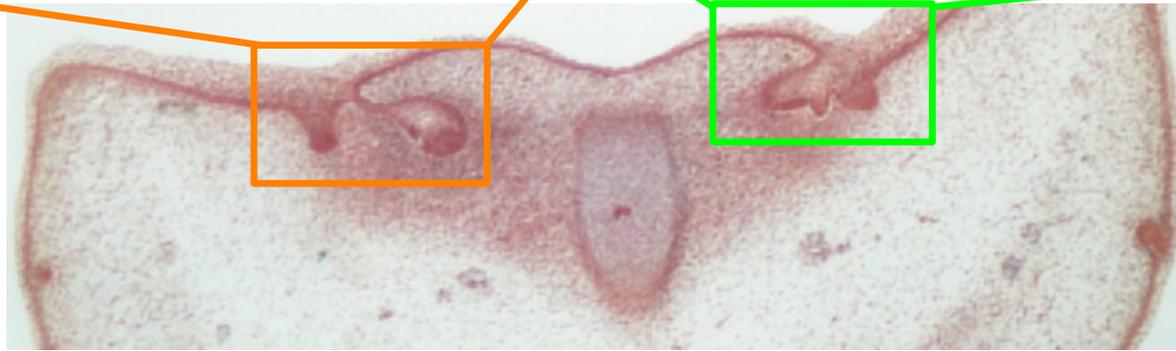

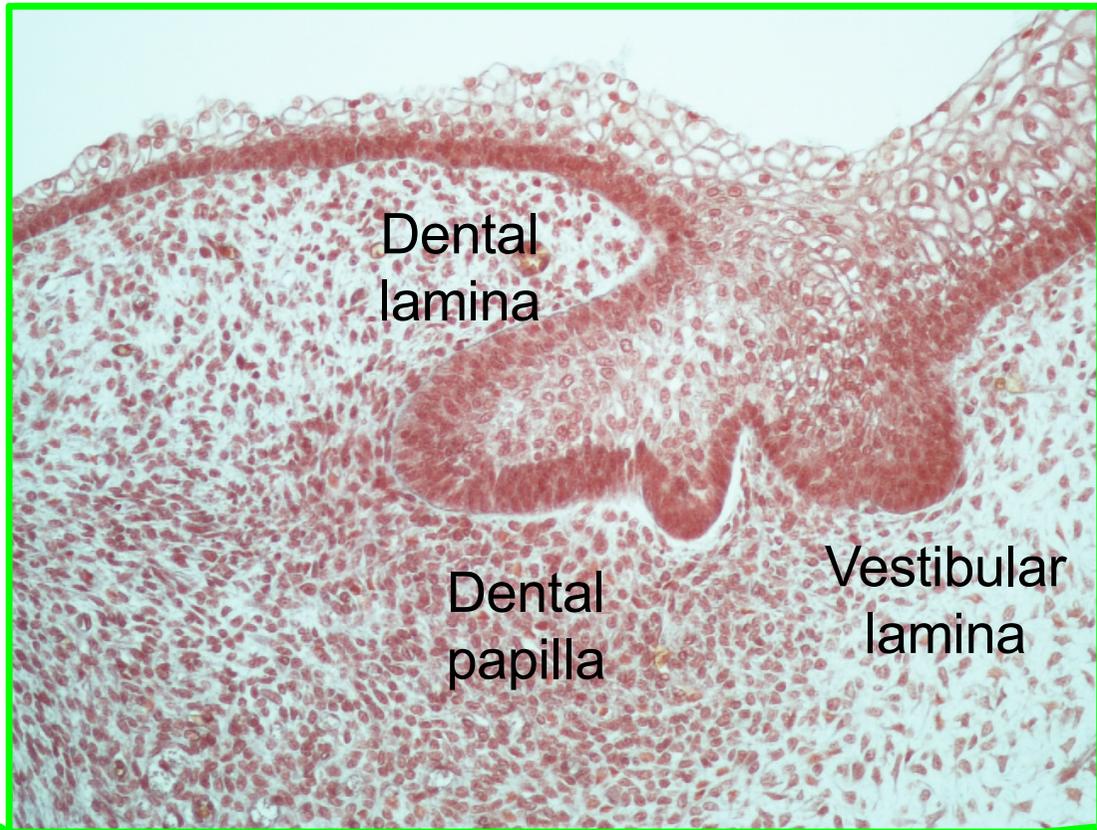

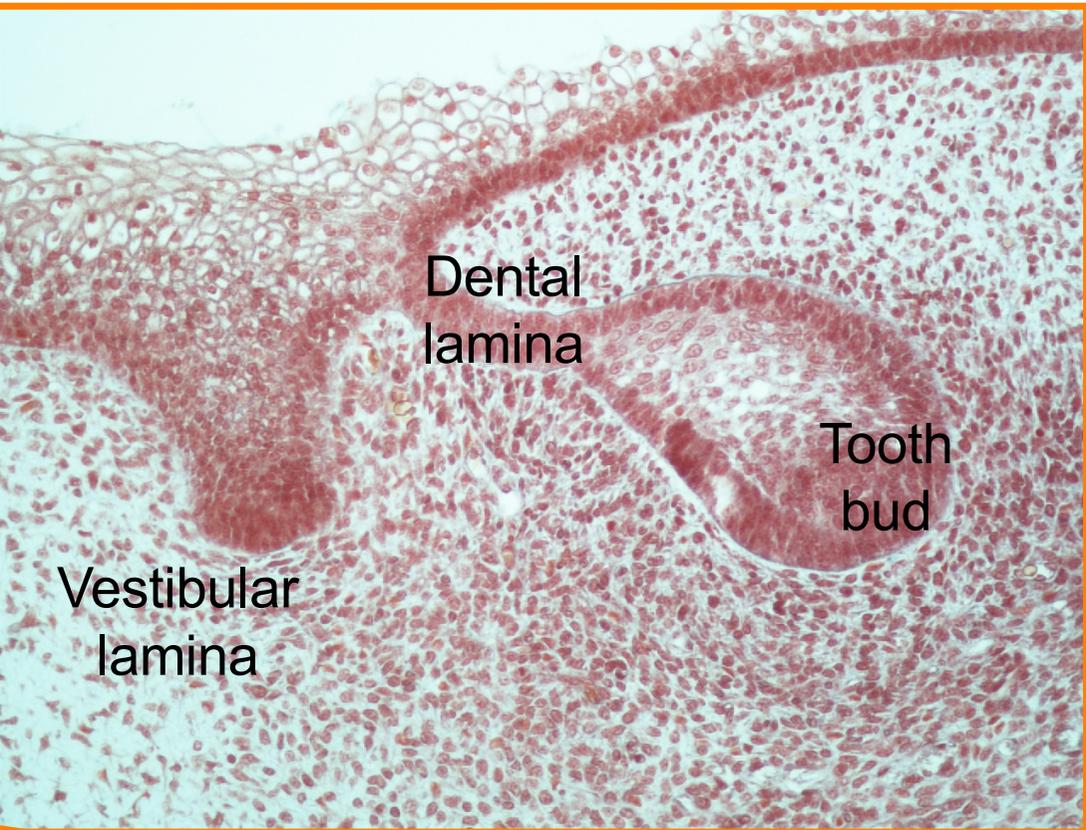

Meckel's
cartilage

Nasal cavity

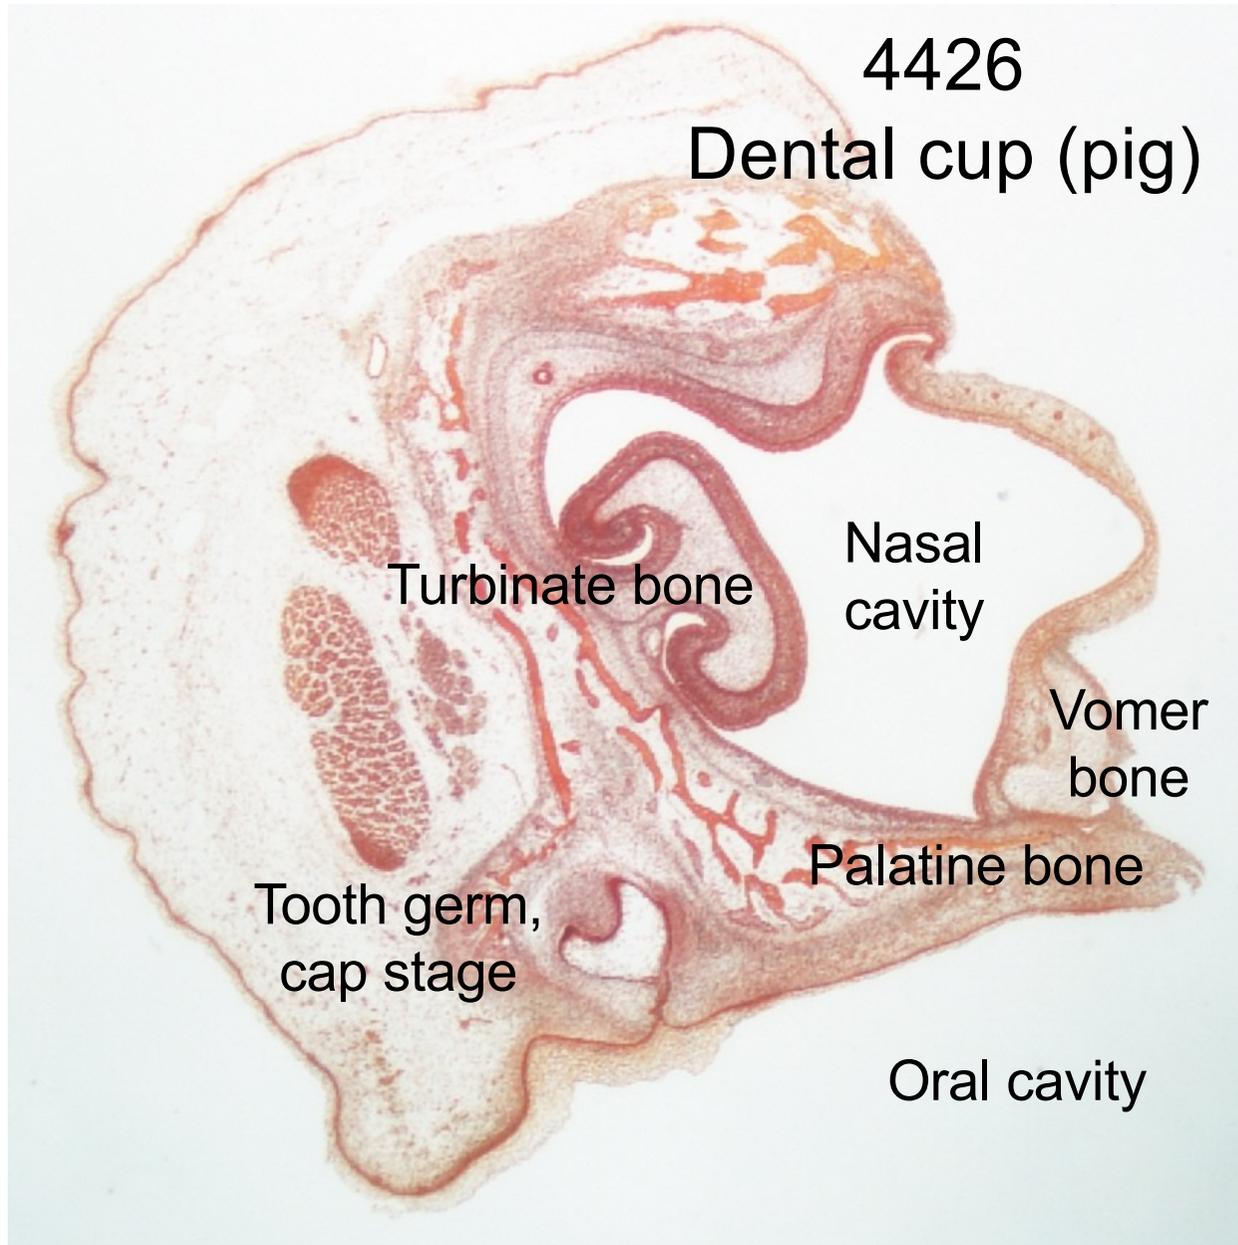

Turbinate bone

Palatine bone

4426

Dental cup (pig)

Turbinate bone

Nasal cavity

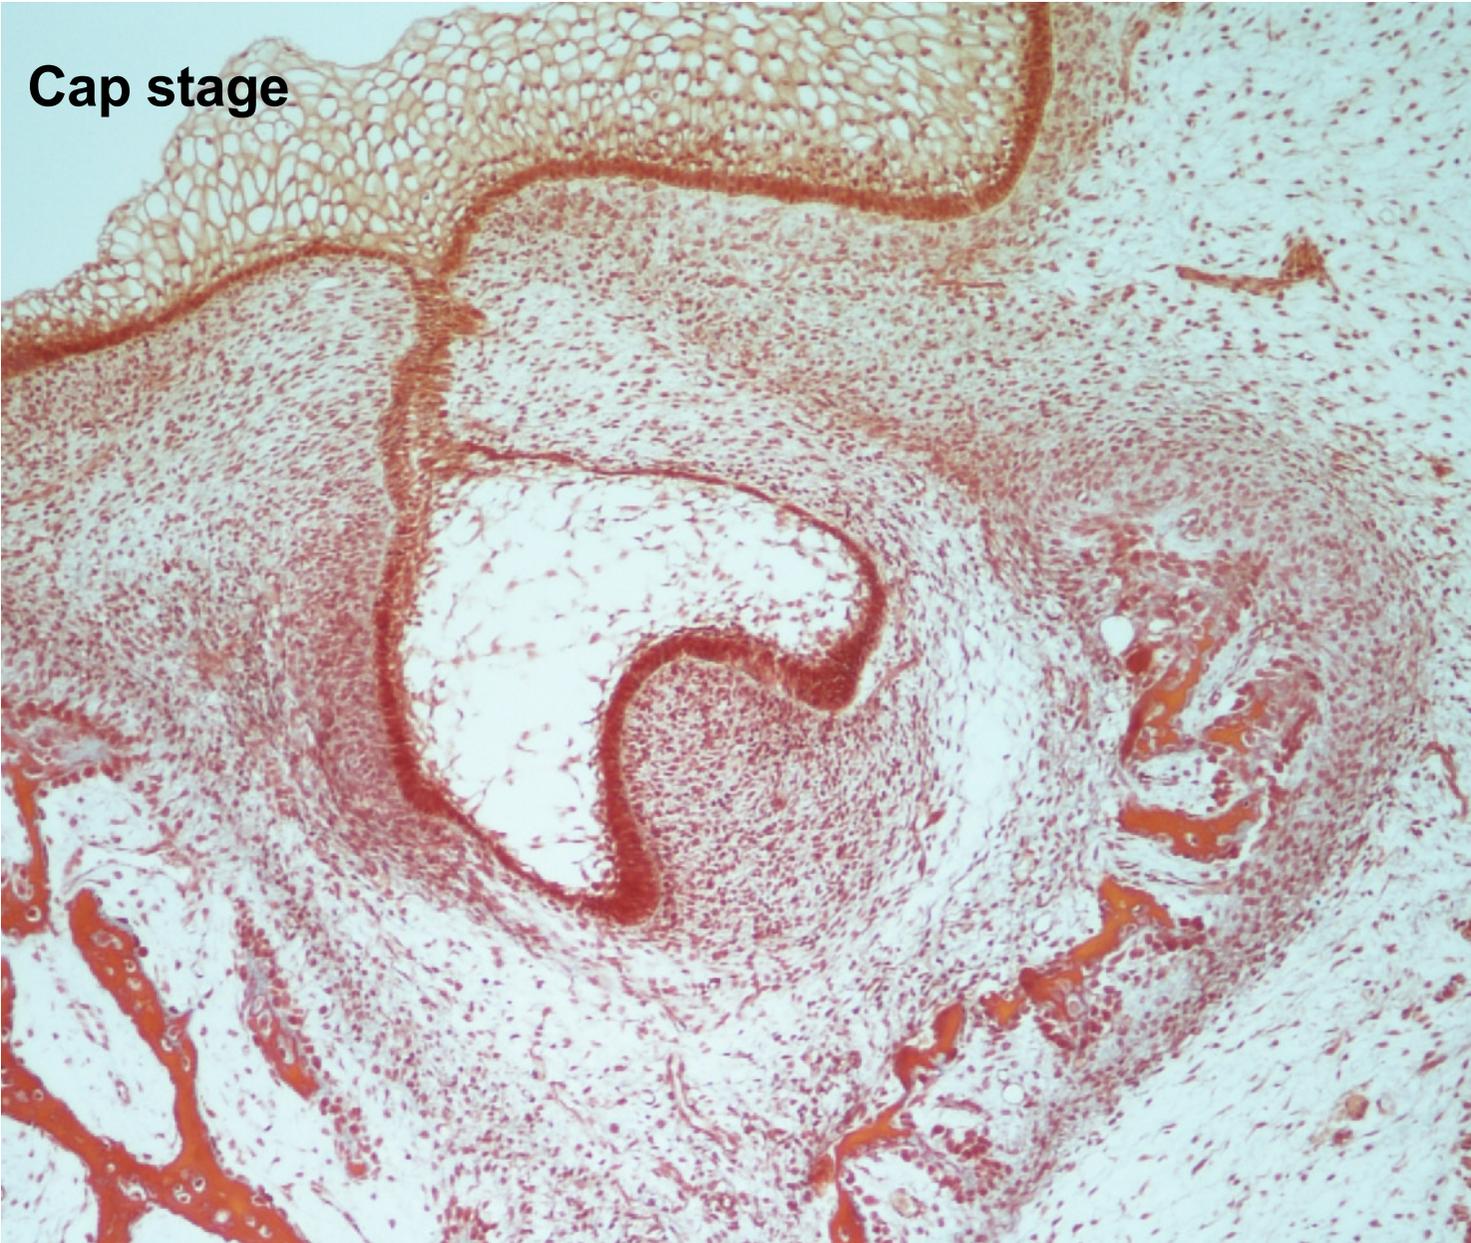

Vomer bone

Palatine bone

Tooth germ,
cap stage

Oral cavity

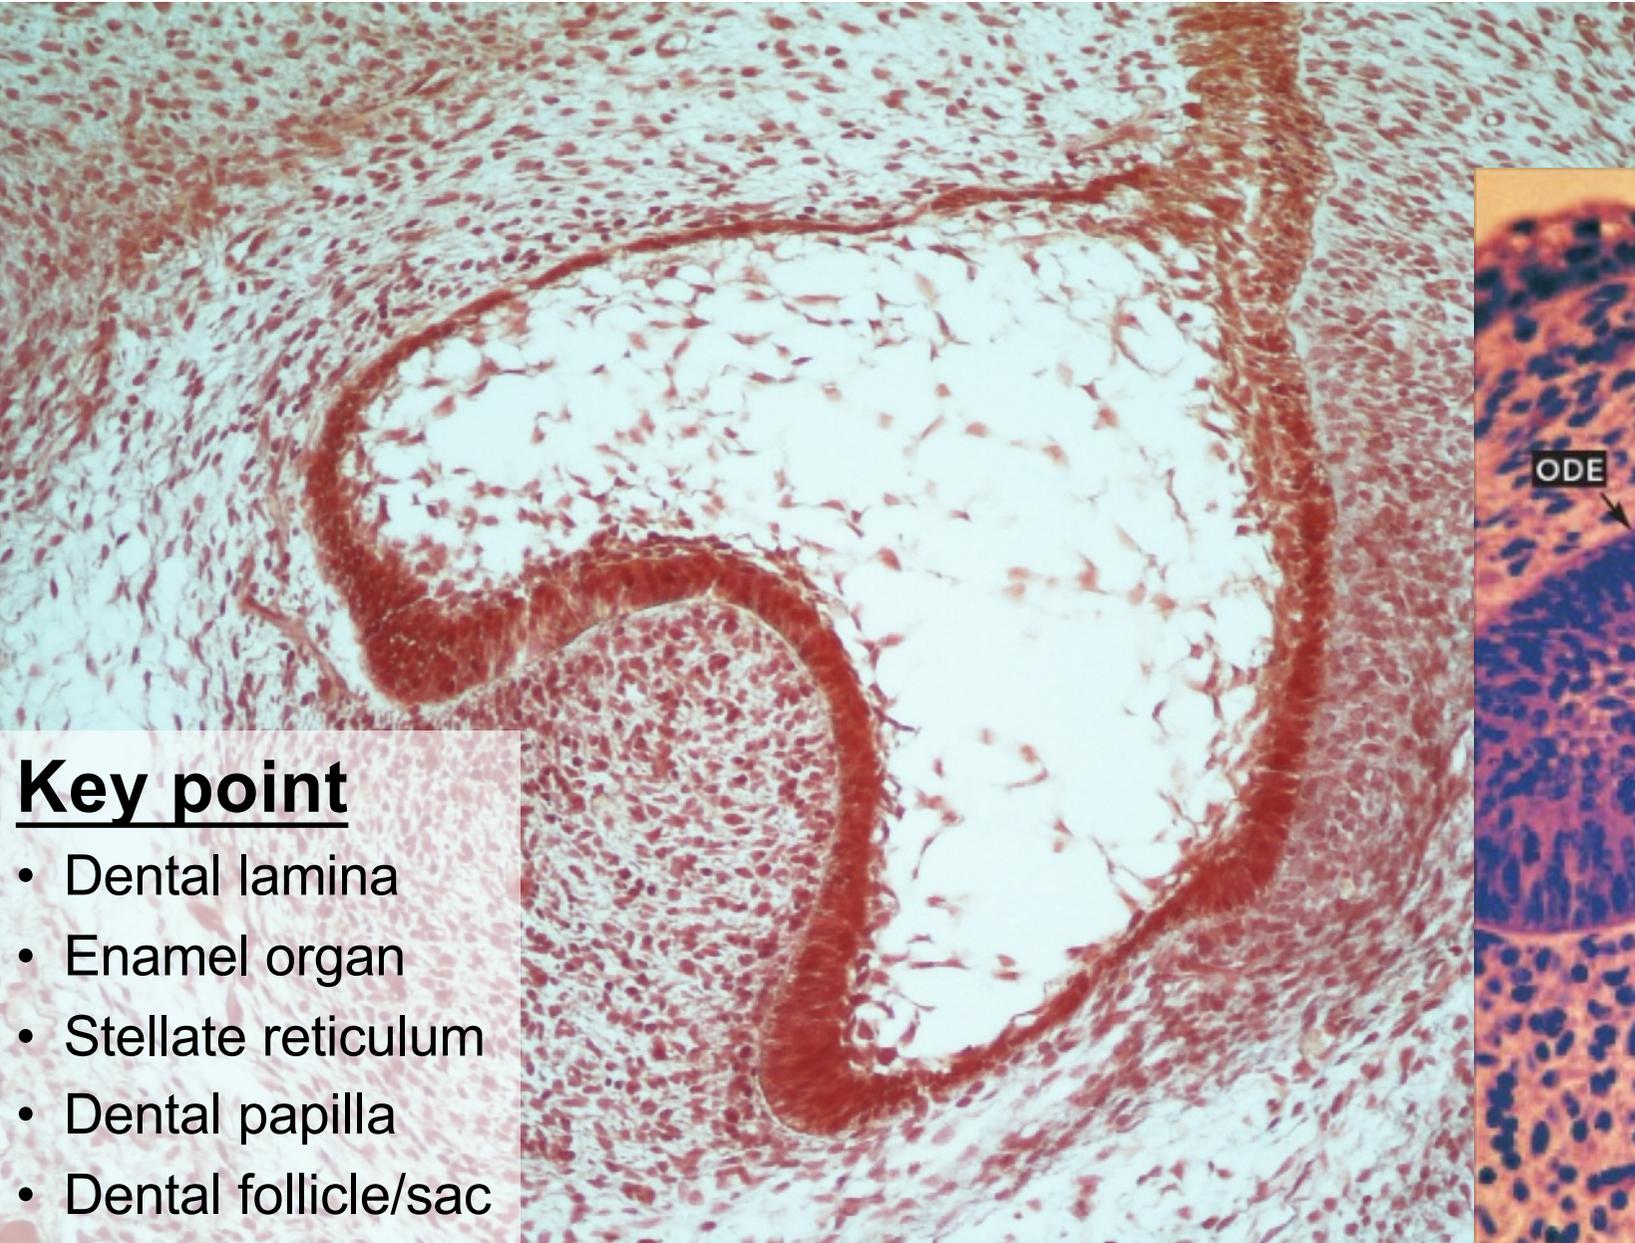

Cap stage

Key point

- Dental lamina
- Enamel organ
- Stellate reticulum
- Dental papilla
- Dental follicle/sac
- Developing bone
- Oral epithelium
- Primary epithelial band

Cap stage

Key point

- Dental lamina
- Enamel organ
- Stellate reticulum
- Dental papilla
- Dental follicle/sac
